

Morningstar™ DatAnalysis

Key Benefits

- ▶ Easy-to-use online resource for company analysis
- ▶ Targeted search capabilities with comprehensive current and historical data
- ▶ Daily data updates

Morningstar™ DatAnalysis is the definitive database for comprehensive, reliable information on all ASX listed and delisted companies. Its online format offers instant access to current and historical data, both financial and non-financial. Morningstar's specialised investment analysts monitor and update the database daily to ensure the most current information.

Powerful searching and reporting tools enable users to find and display information for any company quickly and easily. An indispensable resource for stockbrokers, investment bankers, accounting firms, law firms, academics, and corporate libraries, DatAnalysis offers timely data as well as an unparalleled wealth of historical company information.

Comprehensive Company Information

Find a broad range of company financial and non-financial information within DatAnalysis. Perform in-depth analysis of directors, substantial shareholders, operational history, growth of capital history, dividend history, mergers and acquisitions, controlled entities, segment performance, and PDF-based ASX announcements such as annual reports.

Monitoring these company activities is easier with DatAnalysis' alerting tool. Users can receive real-time ASX announcements for criteria they select, and keep their alerts secure with a password.

Unparalleled Historical Data

DatAnalysis is a premium research tool that provides a comprehensive historical picture of Australian listed companies. It features extensive data such as company history and listing details, as well as corporate action records such as bonus issues and company reconstructions. Other information includes:

- ▶ 10 years of financial data;
- ▶ ASX announcements from 1998;
- ▶ Takeover details from 1995;
- ▶ Historical share prices and market capitalisation daily from 2000, and monthly from 1988;
- ▶ Delisted equities from 1989; and
- ▶ Signal G announcements from 1989 in text format for easy retrieval.

Robust Search Capabilities

Perform highly specific research using DatAnalysis' advanced search tool. Select from more than 80 subsections within the database and search by text,

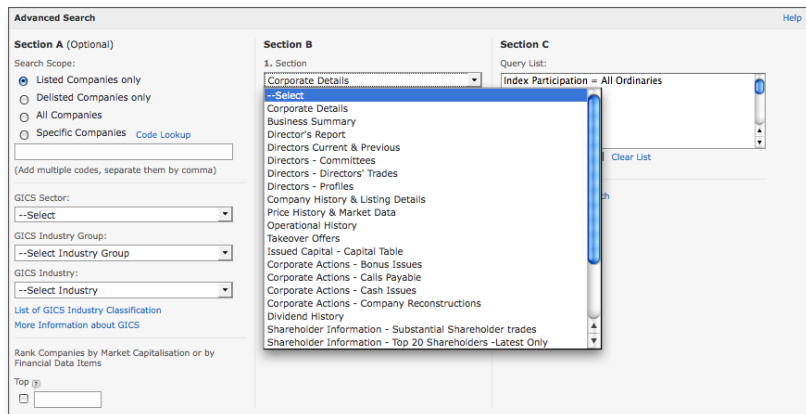

Company Reports
